*Mileage may be calculated from the service origin and may be subject to a minimum mobile service fee. Rates are starting rates and may change based on service scope, location, volume, testing protocol, equipment requirements, scheduling, laboratory/MRO fees, and contract terms. Laboratory testing fees are generally separate unless specifically included in a written proposal. Recurring service days, on-site testing events, annual agreements, and multi-site service are available for employers — request a corporate or industrial quote with your workforce size, location(s), and expected frequency.
